Bauxite Mining Project at Lanjigarh Receives Supreme Court Approval

Vedanta Resources plc ("Vedanta" or the "Company") announces that the Honourable Supreme Court of India today approved the bauxite mining project at Lanjigarh in the Kalahandi District of Orissa.

The Company is delighted that the project has been given the go-ahead and is committed to its implementation in accordance with the guidelines and safeguards laid down.

The bauxite mining project along with the Lanjigarh alumina refinery will bring significant employment and economic livelihood for the local people and contribute to the overall development of the region.

Disclaimer

This press release contains "forward-looking statements" – that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance, and often contain words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "should" or "will." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, uncertainties arise from the behaviour of financial and metals markets including the London Metal Exchange, fluctuations in interest and or exchange rates and metal prices; from future integration of acquired businesses; and from numerous other matters of national, regional and global scale, including those of a political, economic, business, competitive or regulatory nature. These uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.
