

Konkola Copper Mines plc November 2012

Disclaimer

The views expressed here may contain information derived from public and non-publicly available sources that have not been independently verified.

No representation or warranty is made as to the accuracy, completeness, reasonableness or reliability of this information. Any forward looking information in this presentation including, without limitation, any tables, charts and/or graphs, has been prepared on the basis of a number of assumptions which may prove to be incorrect. This presentation should not be relied upon as a recommendation or forecast by Konkola Copper Mines plc ("Konkola"). Past performance of Konkola cannot be relied upon as a guide to future performance.

This presentation contains 'forward-looking statements' – that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance, and often contain words such as 'expects,' 'anticipates,' 'intends,' 'plans,' 'believes,' 'seeks,' or 'will.' Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, uncertainties arise from the behaviour of financial and metals markets including the London Metal Exchange, fluctuations in interest and or exchange rates and metal prices; from future integration of acquired businesses; and from numerous other matters of national, regional and global scale, including those of an environmental, climatic, natural, political, economic, business, competitive or regulatory nature. These uncertainties may cause our actual future results to be materially different than those expressed in our forward looking statements. We do not undertake to update our forward-looking statements.

This presentation is not intended, and does not, constitute or form part of any offer, invitation or the solicitation of an offer to purchase, otherwise acquire, subscribe for, sell or otherwise dispose of, any securities in Konkola or any of its partner group company undertakings or any other invitation or inducement to engage in investment activities.

Konkola Copper Mines – A Leading Copper Company...

Substantial high grade resources and reserves

- 688.9 Mt of copper reserves & resources, 13.6 Mt of contained Cu
- Konkola underground mine grade of 3.55% with 24+ years mine life

Well invested production facilities

- New 300+ktpa Nchanga smelter; New East and West Mill concentrators; Second Cobalt Recovery Furnace
- Konkola Deep Mining Project (“KDMP”) mid-shaft loading commissioned in April 2010 and waste hoisting from bottom-shaft commissioned in October 2012

Substantial production growth and cost reduction

- Growth in copper production from 200 kt production in FY2012, targeting production of 400+ ktpa through brownfield expansion
- Further cost reduction and stabilisation: targeting sustainable cost performance of <\$1.50/lb C1 integrated cash costs

Strong working relationship with Zambian government

- The largest private employer in Zambia in terms of the number of employees and third-party contractors
- Zambian Government remains an important shareholder of KCM

Valued local partner

- Committed to training and developing the local workforce
- Local communities: Numerous health, education and welfare programmes

...in the Heart of the Zambian Copper Belt

\$2.6bn of capital invested to-date, in a stable regulatory and democratic environment

Overview of KCM Assets

Konkola Deeps

Konkola (Chililabombwe)

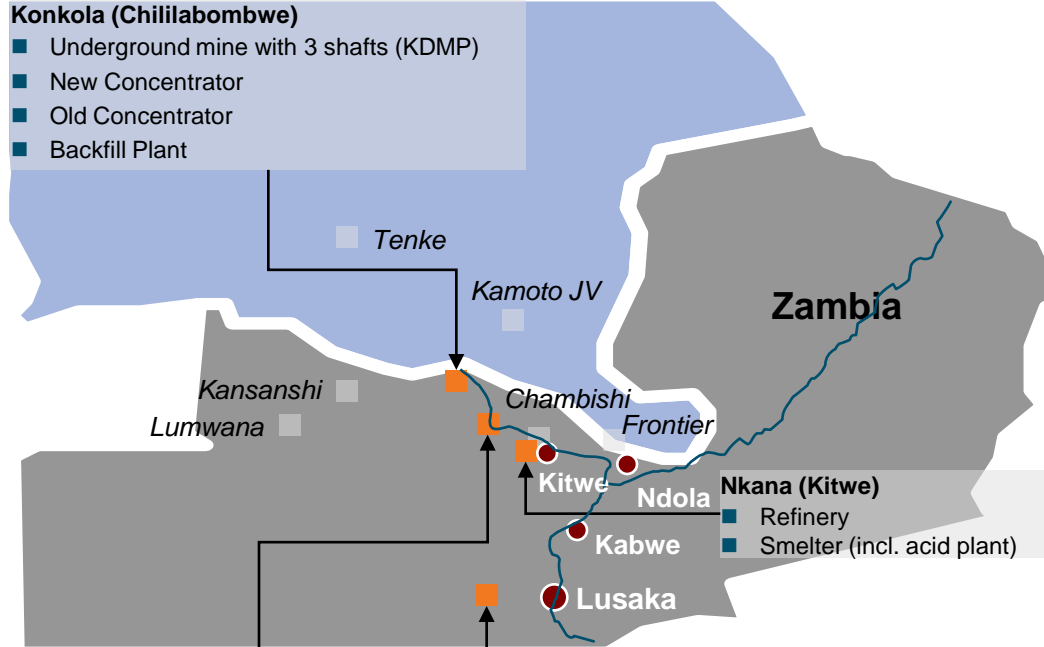

- Underground mine with 3 shafts (KDMP)
- New Concentrator
- Old Concentrator
- Backfill Plant

Nchanga Open Pits

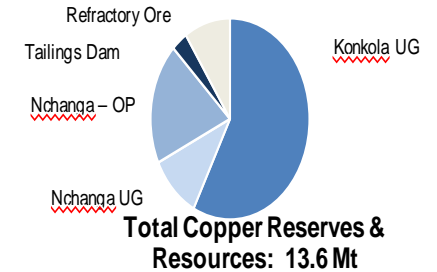

Nchanga (Chingola)

- Underground mine with 2 shafts
- Open pit mines (2 operational)
- 2 new concentrators (East and West mills)
- 2 old concentrators
- Tailings leach plant (incl. SX-EW facilities)
- Smelter with acid plant
- Acid plant
- Refractory ore stockpiles (CRO)

- KCM Group operations
- Other operators
- Main Highway Routes in Zambia

Copper R&R by Asset

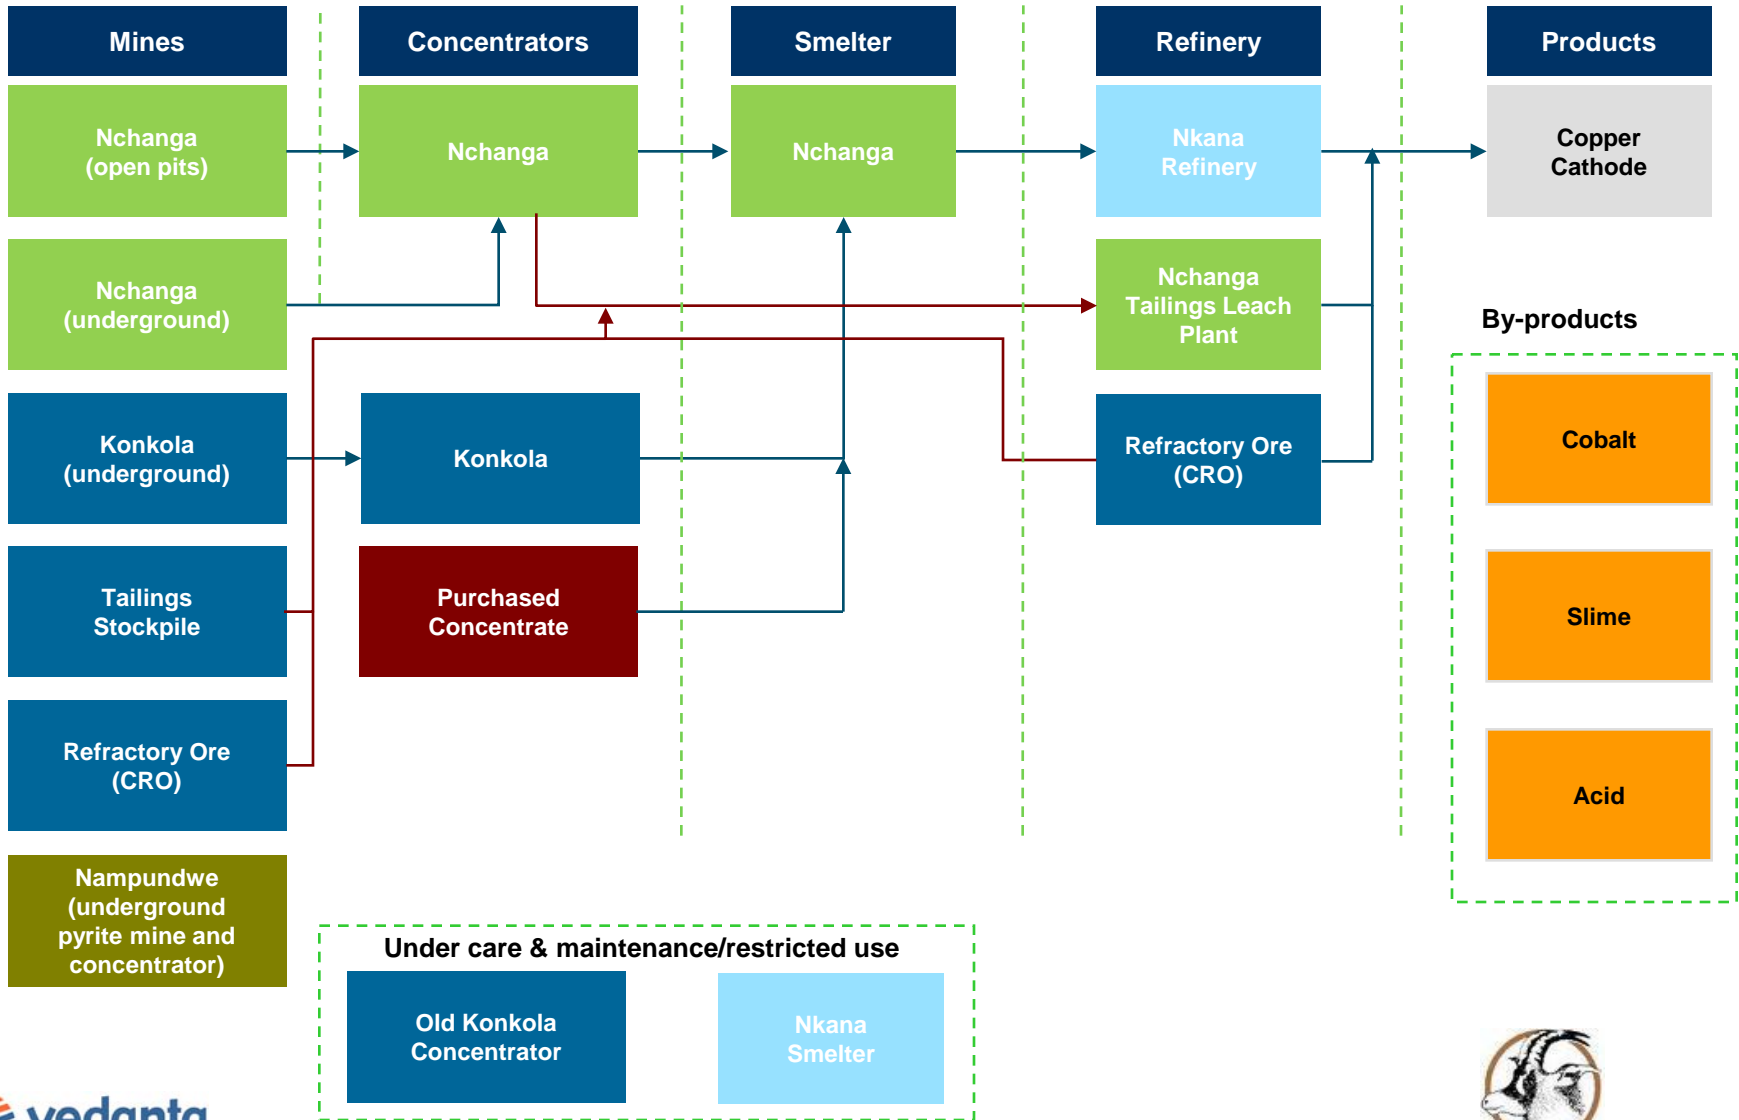

Nampundwe

- Underground pyrite mine
- Concentrator

Integrated, Well Invested Asset Base

Fully integrated operations in mining, concentrating, smelting and refining

Investment Cornerstones

Project		Description	Capacity	Status
1	New Konkola Concentrator	<ul style="list-style-type: none"> ■ Caters to enhanced mining out put ■ Improved recovery ■ Improved Concentrate grade 	6 mtpa processing capacity	Commissioned in 2007
2	New Nchanga Smelter	<ul style="list-style-type: none"> ■ State-of-the-art technology ■ Benchmark Sulphur Capture 	311+ ktpa	Commissioned in 2008
3	Konkola Deep Mining Project	<ul style="list-style-type: none"> ■ Enhanced mining up to 1,500 M depth ■ Mine life extension to 30 years 	7.5 mtpa at 3%+ Cu	Bottom Shaft waste hoisting commissioned in 2012
4	Tailings Leach Plant Expansion	<ul style="list-style-type: none"> ■ Increase capacity at current facility from 42ktpd to 47ktpd & finally 55ktpd 	75 Ktpa	Commissioned in 2012
5	New East & West Nchanga Concentrators	<ul style="list-style-type: none"> ■ Caters to enhanced mining out put ■ Improved recovery and concentrate grade 	10.5 mtpa processing capacity	Both commissioned in 2012
6	Second Cobalt Recovery furnace	<ul style="list-style-type: none"> ■ Increase cobalt recovery from 37% to 70% 	1,350-1,400t of cobalt	Commissioned in 2012
7	Upper Ore Body Project	<ul style="list-style-type: none"> ■ Increase Nchanga Under Ground life by 22 years 	Sustain NUG at 2.5 Mtpa	Project development underway
8	Chingola Refractory Ore Project	<ul style="list-style-type: none"> ■ Harnesses 150mt Refractory ore stock pile ■ Uses entire acid from Nchanga Smelter 	50 Ktpa	Under review

Investments - The New Nchanga Smelter

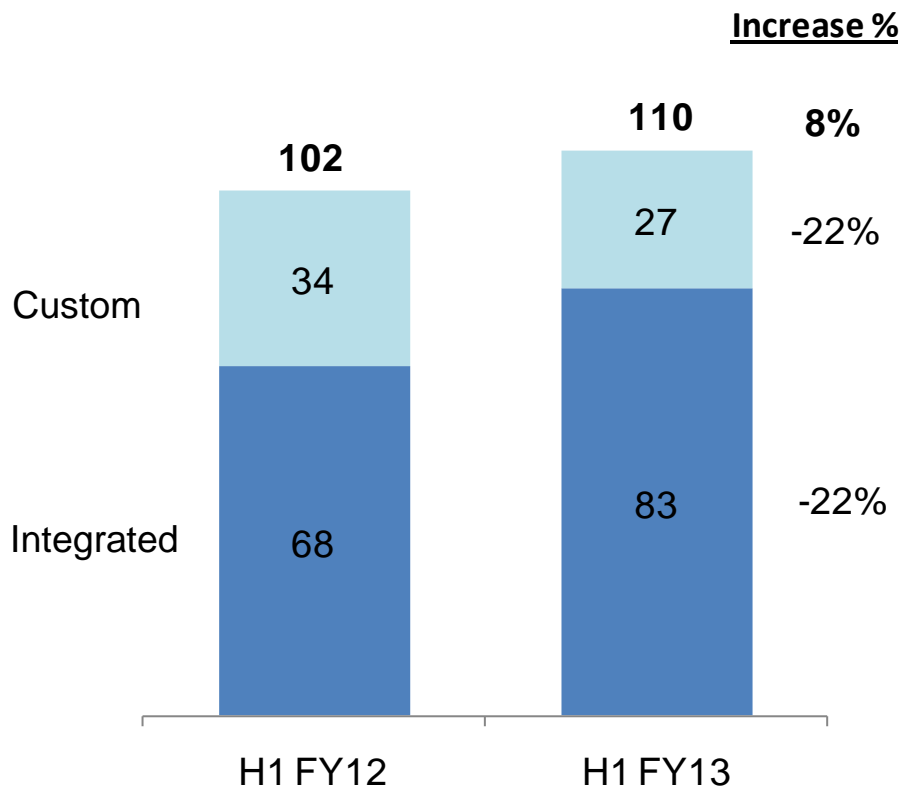

Investments – Konkola Deep Mining Project

FY2013 Interim Update

Finished Production (ktpa)

Konkola

- Shaft 4 equipping complete
- Waste hoisting from bottom shaft has commenced
- High speed tramming at 2900 ft level complete
- Dewatering secure with power backup generation
- Primary development has picked up pace with induction of new partners
- Concentrator already commissioned

Nchanga

- New East Mill concentrator fully stabilized
- New West Mill concentrator fully commissioned and flotation circuit fully stabilized
- Second CRF commissioned and cobalt recovery has increased
- UOB development on track

Organisational Initiatives

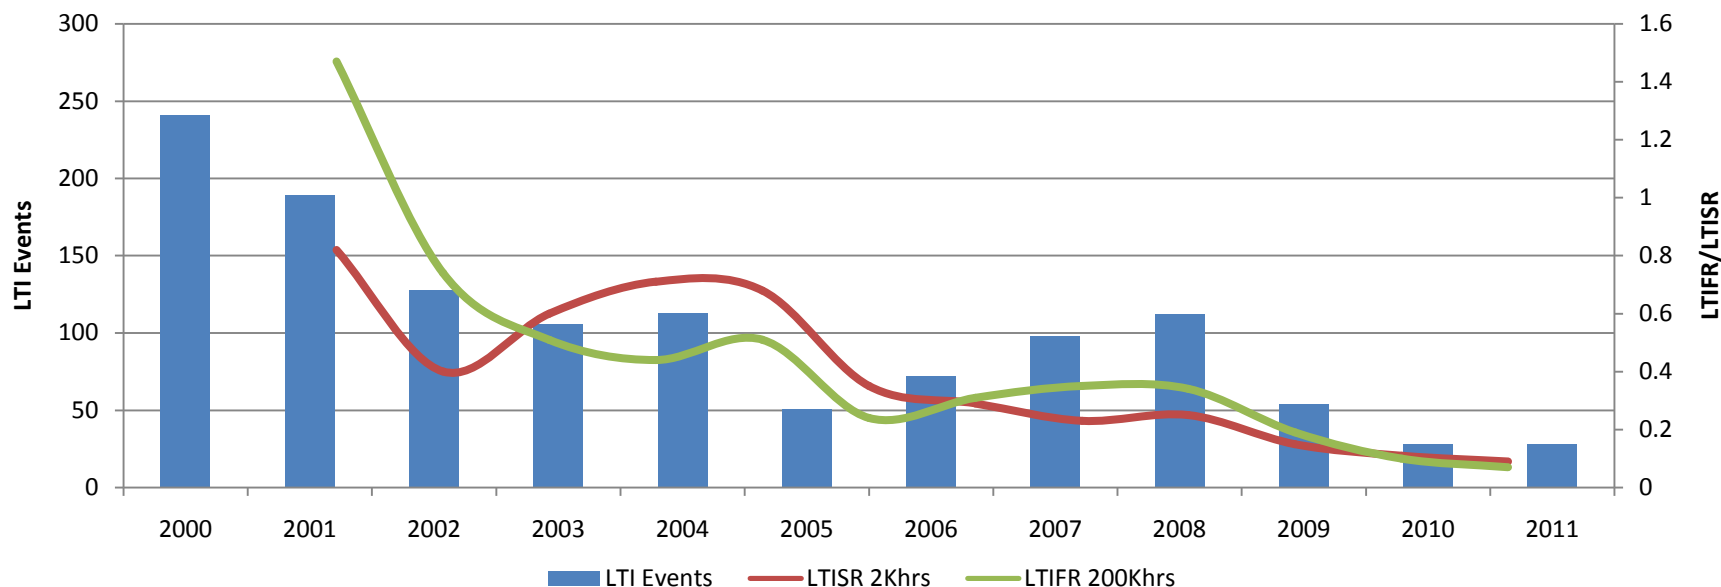

- Induction of diverse new talent
- Formation of Growth/strategic planning cell to drive key growth initiatives
- Increased deployment of technology and TQM methodology across the organization

Focus on Safety

- Safety, Health, Environment and Quality policies regularly monitored and reviewed
 - Significantly reduced LTIs between 2000 – 2011
- Received internationally recognised occupational health and safety certification:
 - International Golden Peacock Award for occupational health and safety
 - British Safety Council Award in April 2009 and April 2010
 - Zambia Federation of Employer's award for best safety and occupational health policy in 2009

KCM Lost Time Injury (“LTI”) Track Record¹

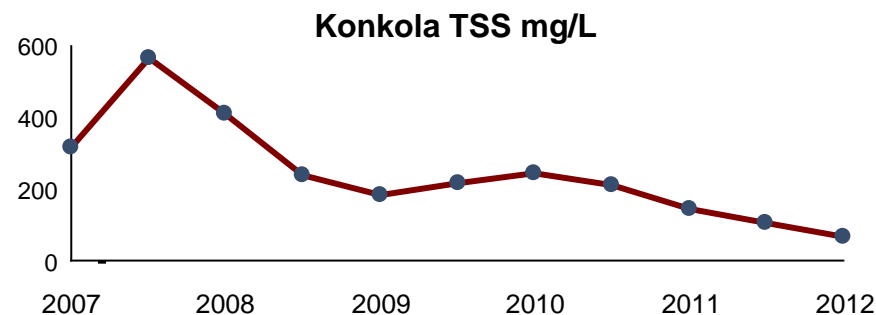

Source: Company
(1) Full year data for the calendar year ending December.

Environmental Stewardship

- KCM seeks out and invests in new technologies and operational improvements to prevent or minimise the negative impact of its operations on the biophysical and social environment
 - KCM's new smelter complex in Nchanga achieve sulphur recovery factor exceeding 97.5% and eliminates >99% of sulphur emissions
- Governed by principles of sustainable development
 - Achievement of the British Standards Institution's International Standards Organisations ("ISO") 14001 certification for Konkola and Nampundwe mines
 - Investments in programmes to promote reforestation and better agricultural practices. Current project include an initiative to reduce indigenous timber consumption through use of plantation timber
- At Konkola operations, significant success has been achieved in bringing down total suspended solids (TSS) in discharged water from an yearly average of 200mg/L in 2009 to below 70mg/L in 2012.
 - Current performance is well within statutory limits
 - Lower TSS has improved pump and power efficiencies

Community Welfare: Education, Sports and Recreation

Education

- Runs two trust schools – provide primary and secondary education to over 1,800 children of mine employees and related communities
- Provide computer equipment and computer laboratories in government high schools in local communities
- Provide training for teachers in IT skills
- Committed to provide several years of computer maintenance support to schools
- Maintains scholarship programmes
 - Scholastic Excellence Award to top performers
- Constructed early childhood care and development centres in Chililabombwe and Chingola for Marketeers' children

Sports and Recreation

- Zambia's biggest private supporter of sport
 - Sponsor of 2011 and 2012 Zambia Open golf championships
 - National soccer league (KCM-FAZ league) from 2005-2010
 - Four KCM national football clubs
 - Sports infrastructure support
 - District school football tournaments

Local Economic Development and Healthcare Initiatives

Local Economic Development

- Sustainable Livelihood Programmes:
 - Promote income generation among vulnerable groups
 - Cattle distribution to women
- Goat rearing for small-scale farmers
- Widows Tailoring Project
 - Supported the development of two widows tailoring and designing co-operatives
 - Industrial garments were made by women to sell to KCM
 - Supported small-scale agricultural activities
- Child-aid partnership with DAPP (NGO)
 - Improve living conditions for up to 15,000 households in Chingola and Nampundwe
- Infrastructure Support projects
 - Sinking 2 boreholes for rural communities in Chingola to provide potable water
 - Development of water and sanitation facilities at Nyimba's Kenneth Kaunda Children of Africa Foundation
 - Spent over \$5m on road and street lighting repairs

Healthcare Initiatives

- KCM runs 2 hospitals - the Nchanga South Hospital and Konkola Mines Hospital
 - Rank among the best in the Southern African region
 - Run by highly-qualified and experienced consultants covering medicine, surgery, paediatrics, urology, orthopaedics, obstetrics, gynaecology and anaesthesia
- KCM also runs 5 satellite clinics around its operational areas
 - The "Rollback" Malaria Control Programme started in 2000 has been recognised as one of the most successful malaria eradication initiatives
 - Successfully reduced the prevalence of the disease in and around its operations by over 80%
 - No malaria death recorded at any of the KCM Group's health facilities since 2002
- 2012: Launched a major eye-care initiative to screen and treat members of society for diabetes-related eye conditions in and around the areas of KCM operations
- 2009/10: The "Moneni2" Project
 - Distribution of 23,000 pairs of eye glasses to school-going children and adults of over 40 years of age suffering from short or long-sightedness
- 2008: The "Moneni" Eye Cataract Project
 - Helped to restore the sight to 171 elderly people during a campaign in which over 3,000 people were screened and treated free-of-charge for various eye conditions
- 2007: Door-to-door family health check programme
 - Provide basic health information, counselling & general health checks to mitigate impacts of HIV/AIDS
- 2006: Provided artificial limbs to people in Zambia

Summary
